Summary

I am a UX Design student at MIT Institute of Design, Pune, with a strong interest in user-centered design and visual storytelling. Whether creating travel content or building high-fidelity prototypes in Figma, I approach every project with a clear focus on the user experience. I enjoy translating research insights into intuitive digital journeys that are not just functional, but thoughtfully designed and easy to navigate.

Bachelor of Design • Pune, Maharashtra

07/2027

K.T.H.M College

HSC (12TH Science) • Nashik, Maharashtra

03/2023

Projects

MONI — Financial Intelligence Agent

Hackathon Project

A finance agent concept designed to reduce the mental effort involved in everyday financial decisions.

- Explored agent roles, decision-making, interventions, and user trust.
- Developed scenarios around budgeting, payments, travel, and spending.
- Designed an interaction system for proactive financial assistance.

Blood Bank Management

Object-Oriented UX

A management system exploring the workflows and information needs of blood bank staff.

- Investigated staff workflows, operational breakpoints, and stakeholder needs.
- Applied Object-Oriented UX through object-action and attribute mapping.
- Developed information architecture, wireframes, and high-fidelity screens.

Sentence Builder Toy

Tangible Interaction

Designed a tangible educational toy for children aged 4–7 to learn subject-verb-object sentence structures.

- Explored physical interaction, word-based learning, and feedback through a connected prototype.
 - Worked with physical components and interactive technology to connect tangible play with digital feedback.
 - Designed an app for them to get the feedback of the toy
-

Experience

Head of Social Media Team (Natak Bitak Club)

March 2024 – Present

- Managed social media and event promotion for 5+ club events with 100+ attendees
- Created 10+ promotional reels using CapCut and VN Editor to improve audience engagement and online visibility
- Directed a team of 6 members, ensuring consistent visual branding and posting schedules
- Increased event reach and online engagement by approximately 30%
- Coordinated with multiple teams within the club to align promotion and event execution

UX/UI Design Intern

Aspire Technology Solutions Pvt. Ltd. · Pune, Maharashtra (Remote) 2026 | Two-month Internship

- Contributed to website layout design and wireframing for a tourism website focused on the Malshej region.
- Conducted market and competitor research and restructured the information architecture, and designed user interfaces to improve navigation and usability.
